

## Design & Technology – Fabric Bunting

### Knowledge Outcomes:

Pupils should be taught to:

- Explore and evaluate a range of existing products.
- Generate, develop, model and communicate their ideas through talking, drawing, templates, mock-ups and, where appropriate, information and communication technology.
- Select from and use a range of tools and equipment to perform practical tasks (for example, cutting, shaping and finishing).
- Select from and use a wide range of materials and components, including textiles, according to their characteristics.
- Evaluate their ideas and products against a design criteria

### Learning Journey:

- Can I evaluate bunting?
- Can I design my bunting flag?
- Can I use a paper template to help cut out a fabric shape?
- Can I use a running stitch to join fabric?
- Can I select fabrics that are suitable for decorating my bunting?
- Can I join fabrics?
- Can I evaluate my product?

### Wider Curriculum:

The children will be sharing their bunting with children in the nursery, understanding the needs of younger children and considering appropriate designs.

### Key Vocabulary

Spelling	Definition / Sentence
bunting	Rows of small coloured flags that are used to decorate streets and buildings on special occasions.
fabric	Cloth or other material produced by weaving together cotton, nylon, wool, silk, or other threads.
evaluate	Consider something in order to make a judgment about it, for example about how good or bad it is
product	Something that is produced and sold in large quantities, often as a result of a manufacturing process.
design	When someone <b>designs</b> a garment, building, machine, or other object, they plan it and make a detailed drawing of it from which it can be built or made.
textile	<b>Textiles</b> are types of cloth or fabric, especially ones that have been woven.
stitch	If you <b>stitch</b> cloth, you use a needle and thread to join two pieces together or to make a decoration.
material	<b>Material</b> is cloth.
template	A thin piece of metal or plastic which is cut into a particular shape. It is used to help you cut wood, paper, metal, or other materials accurately, or to reproduce the same shape many times.
join	To <b>join</b> two things means to fix or fasten them together.
